

How To Find Information About A Program

Step 1: Go to www.HoustonIndustrialTraining.com and click on the button “List of Programs & Courses” in the left hand menu.

Step 2: To learn about any given program, please click on the “**Description**” button. Clicking this button opens the Program Description, in PDF format, in a new window. This file can be saved or printed by the user.

In this example, the user is clicking on the Description for the Chemical Plant Operations course.
